

步驟 2：開啟 HCA 行動憑證 APP，點選「憑證解鎖」

輸入電腦上產生的 PUK 碼後，重新設定密碼

The image displays two sequential screenshots of the HCA mobile application interface. Both screens feature the NTUH (National Taiwan University Hospital) logo at the top, which includes the text '台大醫院' and 'NTUH' with a green cross icon. Below the logo, the text '軟體憑證申請系統' (Software Certificate Application System) is centered. The left screenshot shows a main menu with three primary options: '憑證申請' (Certificate Application), '憑證解鎖' (Certificate Unlock), and '憑證資訊' (Certificate Information). The '憑證解鎖' option is highlighted with a red rectangular border. At the bottom right of this screen is a '登出' (Logout) button, and at the bottom left is the version information '1.0.200817 版號:20'. The right screenshot is titled 'HCA行動憑證' (HCA Mobile Certificate) and shows the '輸入PUK' (Enter PUK) screen. It features a text input field labeled '密碼' (Password) and a '確認' (Confirm) button below it.
